Marathi Language Notes ^ マラーティー 语言, Marāthī lōka भाषा, Marāthi. ^ Until about 300 BC, Hindu men were about 24 years of age when they got married and the girl was always post-pubescent.[124] The social evil of child marriage established itself in Hindu society sometime after 300 BC as a response to foreign invasions.[125] The problem was first addressed in 1860 by amending the Indian Penal Code which required the boy's age to be 14 and the girl's age to be 12 at minimum, for a marriage to be considered legal. In 1927, the Hindu Child Marriage Act made a marriage between a boy under 15 and a girl under 12 illegal. This minimum age requirement was increased to 14 for girls and 18 for boys in 1929. It was again increased by a year for girls in 1948. The Act was amended again in 1978 when the ages were raised to 18 for girls and 21 for boys.[126] References ^ Marathi people at Ethnologue (22nd ed., 2019) ^ "Statement 1 : Abstract of speakers' strength of languages and mother tongues - 2011" (PDF).
